

GOTOCONNECT IS THE PHONE SYSTEM FOR AUTO DEALERS

GoToConnect is more than a phone and meeting system. Check out how GoToConnect powers your dealership's communications across every department, from the sales floor to customer service.

Sales

Answer business calls and texts, give live video vehicle tours, pull analytics, and gather customer data from your cell phone.

Body Shop

Deliver announcements to the right people from your desk phone. Integrate with existing paging systems.

BDC

Never miss a lead, instantly track missed calls, view reports, and display real-time metrics.

Campaigns

Order custom phone numbers for sales campaigns. Use call reports to track campaign performance.

Service

Use texting to send service updates and pickup notifications from the dealership's number.

Receptionist

Screen calls, check staff availability, and easily route calls to the appropriate department.

GoToConnect integrates with the solutions you rely on for more efficient workflows and better customer interactions.

"At Larry H. Miller, we believe every customer service interaction matters. That's why we implemented GoToConnect. GoToConnect's integration of customer sales and service records helps our agents provide a more personalized customer experience. And the resiliency of GoToConnect's cloud-based system, as well as its centralized digital fax, SMS features, and contact center capabilities are the icing on the cake."

— Yan Purba, CTO, Larry H. Miller
